Dear Parent or Legal Guardian:

Thank you for your interest and participation in boating education and safety in Utah. Under Utah's boating law, personal watercraft (PWC) operators, ages 12 through 17, are required to successfully complete a boating education course before they may operate a PWC alone. A registration form for Utah's PWC Education Course accompanies this letter.

- ➡ **Registration forms must be complete.** This includes the parent or legal guardian's signature and a \$12 registration fee for each student. Incomplete registration forms delay registration and enrollment. When we receive a complete registration form we mail each student a copy of the home-study course manual. A youth must be 12 years of age to register for and complete the course.
- ➡ **Plan ahead!** We must receive a complete registration form in our office before we are able to enroll your youth in a class. Please allow two weeks from the time we receive your registration, until participating in the classroom portion of the course. This provides enough time to process the registration, mail the course manual, and enroll your youth into a class.
- ➡ **Each student is expected to study the course manual for approximately 6 hours prior to attending a class.** The course has been developed and approved as an eight (8) hour boating safety course. There are questions on the exam that are taken solely from information presented in the course manual that will not be reviewed by the instructor during the class. Please help your youth be prepared for the class and exam.
- ➡ **A parent or legal guardian must attend the entire class if their child is 12 through 15 years of age.** We strongly encourage the parent or legal guardian of youth, ages 16 and 17, to also attend. Most parents find the course to be educational and informative.
- ➡ **Each student has one year from their registration date to complete the course.** After that time, a student who has not completed the course must re-register for the course.

Utah's PWC Education Class is a knowledge-based course. Ultimately, it is your responsibility to determine whether or not your son or daughter retains the necessary knowledge and has the physical skills and abilities to safely and courteously operate a PWC.

Sincerely:

Chris Haller  
Boating Education Coordinator
